#### COUNCIL OF PRESIDENTS

The Council of Presidents meeting originally scheduled for November 6, has been postponed until November 9. The meeting will still be held at the University of North Florida offices.

#### PERSONNEL PACKET PLANS

Mr. Wilson is coordinating plans for the development of a comprehensive packet of materials for recruiting purposes. This packet will include information concerning schools, housing, banking, apartments, legal services, medical care, community services and facilities and fringe benefits of the University. Guided tours are also anticipated in the future for prospects coming to Jacksonville for recruitment purposes.

Ideas from staff members concerning materials for this packet would be appreciated. The committee coordinating this project will meet within three weeks.

#### LONG DISTANCE TELEPHONE CHARGING

The office of physical facilities has arranged to replace all current telephone credit cards with special billing number credit cards. The new cards will be issued during the coming week, accompanied by a memorandum of instruction.

Each new card will bear a different number. It is requested that this number be used when placing any and all long distance calls including those dialed direct. This simply means that the caller will give his special billing number when the operator comes on the line, instead of giving our present telephone number.

The University will not be penalized under this system as was the case referred to in a recent memorandum from the physical facilities director.

The resulting billing will be systematically organized based on these numbers, thus eliminating the necessity to maintain the long distance telephone logs. Remember, however, that the new numbers assigned must be given instead of the switchboard number when placing any official long distance calls from any location.
