## **The University of North Florida**

The University of North Florida officially came into existence with legislation passed by the 1965 Florida Legislature and opened in October 1972, offering programs at the junior, senior, and beginning graduate levels.

One of the nine institutions of the State University System of Florida, UNF received its accreditation from the Southern Association of Colleges and Schools in December 1974 at both the undergraduate and graduate levels simultaneously. That accreditation action by the SACS was re-evaluated in 1979, resulting in reaccreditation for a ten year period.

The College of Business Administration has been accorded accreditation by the American Assembly of Collegiate Schools of Business at the undergraduate level, the first upper-level program to be so honored. The College recently was reaccredited at the undergraduate level and granted approval also at the Master's level by AACSB.

Within the College of Business Administration, the Department of Transportation and Logistics was designated as one of the first five State University System "Programs of Distinction," and later, as a "Center of Excellence," a direct result of the Florida Legislature's emphasis on programs to serve the needs of the state.

Totally resolved to the ideal of equal opportunity, the University enrolls and employs qualified persons regardless of race, creed, sex, age, physical limitation, or natural origin.

## **The Osprey, UNF's Mascot**

The Osprey was adopted officially as the University of North Florida's mascot in November 1979. Its selection followed several referenda among UNF students, faculty, staff, and alumni and formal approval by former President Thomas G. Carpenter.

A member of the hawk family abundant in Florida, the Osprey's most distinctive feature is a wide, dark, irregular stripe extending from the base of its bill and merging with its dark neck feathers. The stripe gives the appearance of a mask across the Osprey's eyes.

The Osprey's wingspread--some four-and-a-half to six feet--is almost equal to that of the American Bald Eagle and routinely exceeds that of the largest hawks. When attacking prey, fish of insignificant commercial value, the Osprey does not pluck the fish from the water, but dives headfirst for it. The force of its dive often carries the Osprey completely beneath the water's surface.

UNF's mascot is considered a "gentle" hawk, since it seldom, if ever, harms other birds or animals. Its primary intent is securing food. Despite its gentle reputation, the Osprey has no known enemies due to its size, strength, and remarkably sharp talons.

There is only one species of Osprey, and it ranges throughout the world. Unfortunately, the world population of Ospreys appears to be decreasing because of the introduction of DDT and other pesticides into its food source. In the United States, Ospreys can be found in almost every state, but appear to thrive best in southern states, particularly Florida, which provides numerous suitable habitats close to bodies of water that support its prey.

Ospreys routinely are sighted on the UNF campus, a state-designated bird sanctuary and wildlife refuge, where they nest unmolested. Given the University's commitment to environmental protection, the Osprey is a fitting mascot symbol for the institution's ecological concern.

To commemorate UNF's commitment to the environment and its adoption of the Osprey as its mascot, the University of North Florida Foundation, Inc., commissioned a watercolor painting of the Osprey by noted ornithologist and wildlife artist Frederick William Wetzel of Jacksonville. The painting will hang permanently in the UNF Library. Two series of limited edition prints prepared from the original painting are available as gift incentives through the UNF Foundation.

## **The Jacksonville Light Infantry Guard**

The Jacksonville Light Infantry Color Guard was established by the University's Army ROTC detachment and is composed of ROTC cadets enrolled in that program. Formation of the color guard became a reality, after several years of planning and discussion, with the appropriation of funds for authentic uniforms and weapons by the UNF Student Government Association.

The color guard commemorates the Jacksonville Light Infantry Company, formed in April 1857. During the Civil War, this company saw action as part of Confederate forces' Company "A", 3rd Florida Infantry. It fought in the battles of Chattanooga, Perryville during the Kentucky campaign, and, under the command of General Braxton Bragg, CSA, the battles of Murfreesborough, Chickamauga, Missionary Ridge, the Mississippi campaign, and the battle of Atlanta against General Sherman. The JLI was disestablished in April 1865.

The company was reactivated in 1880 to assist with the Mill Riot and, at that time, established its distinctive uniforms.

In 1898, the JLI volunteered for service during the Spanish-American War, but saw no action.

During World War I, the JLI saw overseas action as a company of the 1st Separate Battalion against Imperial German forces. Mustered out in 1918, it was never reformed.

The JLI color guard will represent UNF in a variety of community events and ceremonies.
