

Architect to Submit Girls' Cottage Plan

Plans for a cottage type building to accommodate thirty girls and the administrative offices of the Duval County Parental home will be presented by Jefferson D. Power, architect, at the regular meeting of the Parental home board of managers, to be held at the courthouse at 9 o'clock this morning.

The building will be the first unit of the two-unit plant contemplated in the act of legislature authorizing the expenditures of \$50,000 for the home for delinquent and dependent children who become wards of the juvenile court in the county.

Until the second unit is constructed next year, the boys will be quartered in an available building near the 30-acre tract near Hogan on which the home is to be built, it was said.
