**1984 Distinguished Professor Award**

Each year since 1979, University of North Florida Faculty Association members have chosen among their faculty peers a colleague whose record in teaching, research and service deserved special distinction. Selection for this honor is proof of the recipient's ability to withstand the most rigorous test of all — approval by their peers. This recognition for outstanding performance and dedication also includes a \$1,000 check from the UNF Foundation, Inc., a personal commemorative plaque, and award of a special medallion which becomes a part of the recipient's academic regalia. A place also is reserved for each recipient on a permanent plaque which is housed in the Academic Affairs office.

**DR. LEONARD J. LIPKIN**

*Professor of Mathematical Sciences*

Dr. Leonard J. Lipkin was born in Peoria, Illinois in 1938. Following his graduation from Peoria Central High School, he attended Oberlin College, where he studied clarinet under George Waln and Kenneth Moore and was active in the college's Symphony Band, Wind Ensemble, Collegiate Symphony and a number of chamber groups. He also earned three athletic letters as a member of the Oberlin golf team and served as president of the Jewish Student Congregation.

Graduating from Oberlin with his A.B. degree, *cum laude*, Dr. Lipkin subsequently attended the University of Michigan, where he earned both master of arts and doctor of philosophy degrees. While at Michigan, he began his teaching career as a teaching fellow and lecturer.

Following his studies at the University of Michigan, Dr. Lipkin joined the faculty of the University of California at Berkeley as an instructor. He subsequently went on to teach at the University of Kansas as an assistant professor of mathematics and joined the University of North Florida faculty in September 1972 as an associate professor. Dr. Lipkin subsequently earned promotion to his current academic rank of professor of mathematical sciences.

The 1984 Distinguished Professor holds memberships in the American Mathematical Society, Mathematical Association of America, Society for Industrial and Applied Mathematics, and the Florida Council of Teachers of Mathematics. He also holds membership in two honorary societies, Sigma Xi and Phi Kappa Phi.

At UNF, Professor Lipkin has been active on numerous University, College of Arts and Sciences, and Faculty Association Committees. He served as interim vice president of the Faculty Association in 1975, as president of the Arts and Sciences faculty during 1975-76 and 1979-80, and was a member of both the Presidential Search Committee and the UNF Press Editorial Board.

Within the Department of Mathematical Sciences, Dr. Lipkin served as acting chairperson during 1983, has served as assistant chairman since 1982 and recently was named the department's permanent chairperson. He organized the University's first student mathematics club in 1972 and has served as faculty advisor for the Mathematics/Statistics Club since 1982. He also has coordinated many departmental colloquia and, as his department's coordinator for lecturers, has brought to the campus a number of off-campus speakers.

Dr. Lipkin continues to actively pursue research opportunities and currently is preparing a proposal to be presented to the National Science Foundation for an institute for excellent teachers of mathematics. He also is a member of the UNF grant committee seeking a program or center of excellence in mathematics, computer and science education at UNF.
