OOPS! MARINER. Two corrections should be added to last week's Norman Haltiwanger's promotion should be corrected to "acting" director of personnel.

Also, those tree fairies who were supposed to have come over last weekend made liars out of us. But, fortunately, they came this week and you have probably noticed the lovely magnolia, oak and dogwood trees on the center median and east side of the buildings. Thanks goes, again, to the Jacksonville Sesquicentennial Tree Committee.

CHRISTMAS MESSAGE

With the advent of the Christmas season, the ending of the year 1972, and the completion of our first quarter of operation, this seems an appropriate time to share some thoughts with you. I am actually inclined to look on this season as a Thanksgiving period, for I believe we have successfully achieved almost every goal we set for the beginning of this institution, and there is every reason to believe that long-range hopes will be realized. I am thankful for the people who have come together here. The students, I am told, are better on the average than the faculty expected and the faculty, in general, is better than the students expected. The staff, most of whom fared the trauma of opening a new institution for the first time, came through like veterans. Everyone has endured the inconveniences associated with new buildings, incomplete facilities, and untested procedures with hardly a complaint. All in all, it has been a good year, thanks to you, and it should establish a sound formulation for many good years to come.

As you take a break for the holidays to travel or to be with family and friends or just to rest, I hope you will all share my pleasure and satisfaction. Be happy and be careful.

President
