FOR THE WEEK BEGINNING OCTOBER 21, 1976

Ann Tillinghast, Editor

HALYARD GETS ALL-AMERICAN RATING

Although it has ceased publication, UNF's former community newspaper, HALYARD, recently received All-American and First Class ratings from the Associated Collegiate Press for editions published during the past winter and spring quarters.

The ratings are the highest that can be given.

The HALYARD, in Fall quarter 1975 competition, received a First Class rating, according to William J. Roach (lang. & lit.), general manager of the defunct HALYARD and coordinating faculty member for UNF's new laboratory paper, PHOENIX.

The new HALYARD rating came as the newspaper amassed 4,215 points out of a possible 4,500. HALYARD competed in a newspaper category against four-year colleges and universities enrolling 1,000 or more students and publishing twice monthly. More than 3,000 newspapers throughout the country were included in the competition. All issues produced during the winter and spring quarters were evaluated. That time period also marked HALYARD's transition from tabloid to full-page format.

To gain the First Class rating, HALYARD had to score 3,800 points or more. The All-American designation came because HALYARD received marks of distinction in four of the five judged categories, which included coverage and content (MD), writing and editing (MD), editorial leadership and opinion features (MD), physical appearance and visual communication, and photography/art/use of graphics (MD).

SWINE FLU VACCINE AT UNF

Coordination among UNF's health office, the city health department, and Southern Medical Exams has resulted in UNF's designation as a swine flu vaccine immunization site.

Immunizations have been tentatively scheduled for Tues., Nov. 2, from 10 a.m. to 7 p.m. in the library commons area. The city health department and UNF health office will coordinate the local immunization program, with the city health department providing supplies. UNF's Eta Sigma Gamma health club will also assist.

Swine Flu Vaccine (cont'd)

The vaccine will be available not only to students, faculty, and staff, but to any person who meets immunization requirements set by the board of health.

Additional information will be forthcoming in MARINER.

FACULTY ACTIVITIES - - - - -

DR. WILLIAM H. CALDWELL (arts & sci.) was re-elected to the Instruction and Research Users Executive Committee, an advisory committee to the policy board of the Northeast Regional Data Center. RICHARD PENLAND (computer science major) was elected as the undergraduate student member of this committee.

DR. PAT BOND (arts & sci.) was elected to the Instruction and Research Technical Committee, an advisory committee to the Northeast Regional Data Center which examines all proposals for the purchase of computer hardware intended for instructional and research uses at UNF and UF.

DR. ROBERT LOFTIN (arts & sci.) presented a paper entitled "The Bird Islands of Nassau Sound" at the fall meeting of the Florida Ornithological Society, early this month. Dr. Loftin was also local arrangements chairman for the meeting.

DR. CHARLES W. YOUNG (bus. admin.) attended the annual meeting of the Financial Management Association in Montreal last week and presented a paper, "Programming Applications for Financial Decision Making."

DRS. ADAM E. DARM and HARVEY A PEARSON (div. of tech.) were installed for second terms as president and secretary-treasurer, respectively, of the National Association of Industrial Technology (NAIT) at the association's annual convention in Charleston, Ill., on Oct. 20-22. Dr. Darm's re-election as president marks the first time in the NAIT's ten-year history that an incumbent president has succeeded himself.

Dr. Pearson also gave a presentation on "Production Scheduling and Control" at one of the national convention sessions, emphasizing "Line of Balance as a Scheduling Technique."

Dr. Darm spoke to the northeast Florida chapter of the American Society of Safety Engineers last Monday, describing UNF's industrial technology program.
