Dear friends,

We have met tonight for a very important purpose and it is to organize A. Great Mitigation Protective League under the management of the colored worker of this city for the

purpose of doing what speaks good for their

for the uplift building

and betterment of their race and I offer this

a supplement to their
you who have met
that the first work
by our efforts and
influence how many
men we can get to
be men in every
dance of the world and
not simply figure heads.
I know that a great many of
our men do not need use to encourage
China to pay their full
taxes and that a great
number of our relations
but we need their assis-
tance as a to help
others. Friends please do
not take the Political
view of this question only for the Educational.

first do you know that our

take our children are schooled? And do you know that our

men are criticized for

not paying their poll
taxes. Do you know that

we should help our

victims while others

are willing to help

us? then if you pay your

poll taxes, the independen

men, don't wait until

the day of election

and allow another

man to pay your taxes
If you pay your poll taxes when you have an occasion to speak for the improvement of our schools for better schools building for school supplies you will not feel embarrassed when you are told you get more that you pay for. Not only are our children schooled out of the taxes but a great many of our young men and women get their outlet and some really assist their family too.
