My Dear Mrs Taylor.-

I have written you so many letters concerning this bill until now I do not know what to say, to think that this has been standing ever since last nov. and it is now the 1st, of july. I am still carrying the bill on my books. you could have paid about \$10.00 per. month and by now the bill would have been paid. I made every thing as cheap as I could for <sup>you</sup> thinking that you'd look after the bill but you dont seem to appreciate it .

And I beg that you will send me a check by return mail for \$ 100.00 to settle the account, many thanks in advance.

Very truly yours

Dear Mrs. Holmes, I did not have any money when Mr. Taylor died, but the Odd Fellows promised me and you to pay part of the bill. I thought you had your as I have not received any. It is a shame the way the secret order tell lies and do a woman about these claims I would not have gone to the expense I did, if I was not told by Mr. Paige that the Fraternity would pay it. I would

have buried Mr Taylor just like  
he died - a pauper.  
You were very kind and accomodat-  
ing, and God knows I would not  
have imposed on you.

I sent the bill to Mr Paige with  
a letter and he wont answer me.

Will you phone him and ask  
him if the Endowment of Odd-  
fellows intends to pay you or me  
anything? They wont answer my letter,

I am not able to come up there  
for something I may not get unless  
I am told. White men in business  
would not do women like this.

Please ma'am let me know what  
he says.

Obliged

M. J. Taylor.
