

October 13-1918.

My Darling:-

While I have a few minutes time this morning I am going to write to you. It may be a very short letter as I expect a call at any time. The papers have just come and the news fills us all with joy as I know it does you, for the imminence of an Allied Peace seems near and the downfall of Germany assured.

Now let your prayers be directed to the leaders of the Allied Governments, that their wisdom and justice may properly administer to Germany the proper punishment for her crimes. It is a wonderful time but a crucial one. God knows how I long for Peace, but for a Peace that will forever prevent a repetition of the terrible catastrophe the world has passed

through during the past four years.
It will be difficult to forecast
Garcia's attempts to deceive but
we all place great confidence
in the leaders who have accomplished
such wonderful things in the past.
The next few weeks are going to
be weeks we will never forget
dear girl and I now feel convinced
that the end is in sight. Oh!
what a blessing it will be to
the whole world to be rid of
the terrible incubus of this
senseless war!

I have been most fortunate
the last day or two in receiving
several letters but none of which
give any news regarding the box
I sent to you. I should hate to
think it is lost. I am not going
on leave even if you want me
to, for reasons I gave you in

my letter yesterday. It is foolish
to spend the money on a good
time.

Well dearest, it is an awfully
short letter but can't be helped.
I have received my call and
must go. I will write again
tomorrow and possibly again
today. I love you dearest, with
all my heart. I love you. With
loads of love to you and my
dear kiddies I am your loving
husband.
