Photographs are time stopped if only you could write what you have

High honor when Beck comes to formal

1949: she is 85 yrs old at start of novel. She is 46 pg.
She was a good mother—when Cody had
the clamp "around miring the sleep."

By her wedding was "so unsatisfying," the
marriage but he had a chance to show
her friend's activities.

So she knew early on that "was not a queer

The Project of Rhetoric
October 21–43

1. need agreement in mind of analysis:
   a. message?
   b. argument?
   c. word?

2. pg 23: “We need more historical, critical studies which provide data on communication which operate to prevent change.”

3. ... and not how a communicator influenced but rather how the maintained equilibrium.

4. ... Kennedy’s speech about cheap procreation.

5. ... when we grow up we realize we tend to unlock processes by which public decisions affect us, is affected by the society in which it occurs.

6. ... if none of our rhetorical choices are to yield effects in contemporary communicative processes — she should proceed immediately — study the communication that is going on now.

7. ... aim of rhetorical relationship is to explain the operation of discourse in our society, the effects of that...

8. We need more impact of the corporate communication.
We must be concerned with the symbolic speech—courage, demonstration, written media; multi-screen production. Despite the efforts of individual nurses, we do not get our message across, much less get a significant experience, a significant sort of multiple meanings; then from there, abstracts some sort of relatively negativized reality. People see relationships between quite independent and isolated stimuli (King assassination,越战 veterans—jail and rebellion). They change to some extent the meaning of death.

A message is not a long-term agreement (a contract). We must categorize messages in terms of context in which a particular message net is received.
The uprising in the occupied territories has shown the world they are willing to die for their cause.

When they (the Palestinians) turn their backs on our policies, we won't pay taxes.

They have withdrawn their cooperation, fought about chaos.

There is a unity element called Islamic fundamentalism.

Jewish fundamentalism is radicalizing the Israelis.

The accepted country is responsible.

We have given the Israelis these weapons. Russia has refused to give them to Syria.

Mediac testimony has shown us that Israel has developed small tactical nuclear bombs.

Israel is not going to be allowed to make the middle east.

The duel on the wall. Whatever it is that seems unfair, seeing our policies are not working - have failed.

"Wwitness Israel" that AEC is not really supporting - if we could help an organized institutional way to go and lead on this situation.

When the conflict is is no longer a policy thing - when there is house to house fighting, where other US targets are hit.

If the sees the moderates keep losing - the US will get nuclear. There will be another nuclear confrontation.
