Defines "natural persons," who are equal before the law and who have inalienable rights as "female and male alike"; provides that no person shall be deprived of any right because of national origin; changes "physical handicap" to "physical disability" as a reason that people are protected from being deprived of any right.

# It is Time to Ensure All Floridians Basic Rights

Every 20 years, The Florida Constitution is carefully studied by an appointed citizen's panel which makes recommendations for change. Currently, The Florida Constitution does not specifically recognize women, nor is there protection for people of different national origins. The citizen's panel says:

## It's time...

To reform Article 1 of The Florida Constitution—The Basic Rights Clause.

## It's time...

For the Constitution to clearly state that women and men are equal before the law.

## It's time...

For the Constitution to guarantee that no existing right can be deprived based on national origin or physical disability.

**It's about time!**

## What's At Stake

Revision 9 will ensure equality for all Florida citizens. In this time, when some want to roll back our rights, we must ensure the time-honored American tradition that fundamental liberties not be subject to political whims.

## The Challenge

On the November ballot, there will be 13 separate measures to consider. It may be confusing to voters. Starting now, we all must encourage everyone we know to Take the Time. Vote Yes on 9.

## How to Help

Besides voting, the most important thing you can do is take the pledge and join The Honor Roll. Add your name to the growing list of Revision 9 supporters. Sign up your family, friends and neighbors.
