

...Love

Never
Fails...

✧ **"For the Love of Life!"** is dedicated to granting and fulfilling personally identified needs that would enhance the quality of life of people whose lives are challenged by the AIDS virus.

Contributions in the form of money and in-kind products and services will be solicited to carry out the arrangements involved in meeting the request of a person living with HIV/AIDS.

Founded in February of 1992 as a nonprofit charitable organization, the fund will be committed to assisting HIV-infected individuals in living a more complete life. ✧

hors d'oeuvres • music • brief program

Reply card enclosed

"As AIDS rips away at the fabric of life robbing us of talent and youth, no one person, be they infected or not, remains unaffected by AIDS. The healing process that we're all then faced with must be touched with the magic and power of love."
