Paid for by Betty Castor for U.S. Senate. Contributions to Betty Castor for U.S. Senate are not tax deductible for federal income tax purposes. Contributions are limited to \$4,000 per individual and \$8,000 per couple.

Every poll confirms that Betty Castor is the only candidate who appeals to Democrats, Independents, and even Republicans. She leads in Florida's Democrat primary by double digits and is the only Democrat who leads in matchups against every Republican candidate.

Betty Castor has proven she's the only candidate who can deliver workable solutions in education, job creation and expanded health care for Florida's families. Betty has been a state senator, commissioner of education and university president. Betty founded the nationally recognized Healthy Kids insurance program and created the partnership that built Florida's vital I-4 high-tech corridor, and lead efforts to improve education standards throughout the nation.

Betty understands the challenges of Florida families and shares their values. She is the most qualified candidate Florida can send to Washington to continue Senator Bob Graham's work of putting Florida families first.

In the US Senate, Betty will deliver real solutions -

- Increase access to quality, affordable health care – expanding Healthy Kids to Healthy Families
- Fight for real legislation to lower the cost of prescription drugs
- Demand common-sense education standards for students and teachers that focus on mastering subjects not mastering tests
- Encourage public-private partnerships between universities, business, and communities to bolster Florida's high-tech economy; and incentives for students to pursue degrees in growth industries like bio-tech, engineering, and nursing
- Protect Florida's military bases and demand that the men and women serving our country in Iraq and Afghanistan and all veterans get the benefits they deserve
- Improve homeland security by strengthening port security to protect Florida's citizens and industries.
