### THE ISSUES

#### Economy

I believe that the laboring man in Jacksonville should make an  
adequate living. While I believe that we need new industry in  
our community, I want that industry to help contribute to a  
quality of life that is beneficial to us. I do not want indus-  
to come to Florida for purposes of economic exploitation  
incentives. Good industries can locate in our community  
to our underemployment problems. I am in favor  
of the Southeast Free Trade Zone that can produce  
employment interests and legislation  
of this type of economic
