

CLINTON  
FOR  
PRESIDENT  
COMMITTEE

Fl. Lt Gov. Buddy Mac Kay -

" I support Bill Clinton for President because I believe he offers the bold new leadership America needs to deal with the realities of the 1990's. Americans know the country is hurting economically and that it needs a government that is more accountable to the people.

As Governor, Bill Clinton has changed politics in Arkansas. He can do the same for America. His innovative proposals related to education and health care are programs we need now, not just at the state level but at the national level.

CLINTON  
FOR  
PRESIDENT  
COMMITTEE

I believe Bill Clinton's proven leadership and new ideas are what mainstream democrats are looking for, and that he can best reposition the Democratic party to capture the White House in 1992."
