

We continue to evaluate our rate structure and commission structure to assure that we are offering our customers the best value for their premium.

We consider small group to be 1-9 employees. We currently pay 10% commission on any group that size to our contracted general agents.

We have over 300 agents in the Orlando area, and 6 general agencies that are certified to sell our products.

We offer a variety of products for small groups and individuals because we want all Floridians to have access to affordable, quality health care.
