

February 5, 2010

Ms. Susan Towler  
Vice President Community Affairs  
Blue Cross Blue Shield of Florida, Inc  
4800 Deerwood Campus Parkway, DCC 3-4  
Jacksonville, FL 32246

Dear Ms. Towler,

I am thrilled to inform you that a plaque has been dedicated to you and **Blue Cross Blue Shield of Florida, Inc** in recognition of your generous contribution to the College of Nursing and Health Sciences at Florida International University. The plaque will be permanently installed on the Donor Wall in the first floor entrance hall of our new building classroom wing. Attached you will find a copy of the plaque.

I would also like to express my enormous gratitude for your support of our College throughout the years. We now have a new state-of-the-art building, the first LEED (Leadership in Energy and Environmental Design) certified building at FIU with first class Simulation and Rehabilitation Centers, that is the gateway to FIU's developing Academic Health Center and offers technology and resources that enable us to foster cutting-edge nursing and healthcare education standards and practices. I know that you care deeply about the role of a FIU education and with your continued support we are committed to produce highly skilled, culturally competent nurses and healthcare professionals to serve our communities.

Once again, please accept my sincere gratitude on behalf of the entire College of Nursing and Health Sciences. I look forward to your support and collaboration as we move forward to a bright future.

Sincerely,

Divina Grossman, PhD, RN, FAAN  
Dean

*Great to see you! Thank you  
enormously -*

A rectangular wooden sign is mounted on a wall of multi-colored stone tiles. The sign has a thin metal border and is held in place by four silver-colored corner fasteners. The text on the sign is white and reads "BlueCross BlueShield of Florida, Inc." in a serif font. The wall behind the sign is composed of irregularly shaped stones in shades of brown, tan, and grey, set in a light-colored mortar. Three dark circular marks are visible at the top of the image, likely from a scanner or mounting hardware.
